

RESUME-BEN EWOKU

Data Systems & Operations Management | Monitoring & Evaluation | Statistics
Kampala, Uganda | +256 774 617 788 | BEwoku14@outlook.com | LinkedIn: [Ben Ewoku Profile](#)

PROFILE

Statistician and data systems manager with over three years of experience in institutional administration, monitoring and evaluation database design, and applied data analysis. Currently manages daily operations and builds M&E and reporting systems for an educational institution in Uganda, combining staff supervision, budget accountability, and technical systems work. Holds a BSc in Economics and Statistics (Upper Second Class Honours) from Kyambogo University.

CORE COMPETENCIES

- Institutional administration: SOP design, staff supervision, petty cash accountability, stakeholder liaison
- M&E systems: database design for programme, student, and staff performance tracking; baseline and progress reporting
- Data collection and quality control: Google/Microsoft Forms, field data verification
- Data analysis and reporting: Python, MySQL, SPSS, STATA, EViews, Power BI, Excel
- Statistical methods: regression and logistic analysis, robustness and assumption testing, panel and time-series analysis

PROFESSIONAL EXPERIENCE

Administration Manager & Data Systems Lead: Winspire Learning Hub, Kampala, Uganda

May 2025 – Present

- Oversee day-to-day operations of the Learning Hub, aligning administration and programme delivery with institutional goals
- Designed and maintain a programme M&E database covering student progress, timetabling, teacher/tutor tracking, and baseline and progress reporting for both process and result indicators
- Built and maintain databases for student records, teacher records, and daily income-expenditure data, and analyse this data to inform decisions on key performance indicators
- Developed standard operating procedures for administration, inquiries handling, and record-keeping, improving consistency and client satisfaction
- Manage a petty cash vote with full recordkeeping and accountability
- Supervise administrative and support staff and coordinate scheduling for lessons, workshops, and events
- Lead field data collection using digital tools, cross-checking entries for errors before submission and ensuring confidentiality
- **Key achievement:** designed and delivered a full secondary school management system on a MySQL backend, covering student, teacher, and parent management, finance, CBC content, exams, library, health/sickbay, messaging, access control, and reporting

Data Clerk Manager: Grace for Education Uganda, Kampala, Uganda

Sept 2023 – Jan 2024

- Produced data reports used in resource allocation decisions for student support programmes
- Coordinated data collection using Microsoft and Google Forms to track educational progress across a student cohort
- Streamlined data entry and cleaning procedures, reducing processing errors and improving reporting reliability
- Analysed programme datasets to surface trends supporting decisions to expand programme reach

Data Entrant: Old Mutual Life Assurance Uganda (via NFT Consult), Kampala, Uganda

June 2023 – Sept 2023

- Cleaned and validated a dataset of 10,000 insurance customer records
- Performed data manipulation and wrangling in Excel to improve data accuracy and organisation

Updated 10th Aug, 2026

- Managed data entry, validation, and progress reporting, and captured biometric attendance data for staff records

EDUCATION

BSc in Economics and Statistics — Second Class Honours (Upper Division), CGPA 4.35/5.0
Kyambogo University, Kampala, Uganda — December 2022

SELECTED INDEPENDENT PROJECTS

- Customer segmentation using K-Means clustering in Python, presented as a client-facing slide deck
- Fraud detection project using anomaly detection models to flag irregular transaction patterns
- Customer feedback analysis using sentiment analysis and satisfaction prediction models
- Statistical consulting for postgraduate students on cross-sectional, time-series, and panel data analysis in STATA, including regression, logistic modelling, and assumption testing

LANGUAGES

English (fluent), Luganda (very good), Ateso (mother tongue), Swahili (moderate)
